DETAILED ACTION

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 9, 10, 12-17, 22 and 39-49 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fukuo et al, U. S. Patent 6,203,910.

Reference to Fukuo et al teaches claimed compositions as mentioned in the previous action. The reference specifically teaches the use of dipropylene glycol monomethyl ether which has been eliminated from the claimed group of solvents. There are still several solvents in the claims that are mere homologues of the deleted dipropylene glycol monomethyl ether and are, therefore, rendered prima facie obvious from that teaching. Substitution of claimed dipropylene glycol monopropyl ether for the disclosed dipropylene glycol monomethyl ether, for example, would be prima facie obvious absent evidence of unexpected results commensurate in scope to the claims.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 10 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Element (ii) of the claim includes dipropylene glycol monomethyl ether which has been eliminated from claim 9 from which it depends.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
